Basic Information

- Place of Origin: China
- Brand Name: Minlong

Product Specification

- Control System: Automatic
- Starting System: Electric
- Speed: 1500rpm
- Dimensions: 2500mm X 1500mm X 2000mm
- Frequency: 50Hz
- Power Output: 1000kW
- Fuel Tank Capacity: 1000L
- Voltage: 400V
- Highlight: **1000kW Heavy Duty Diesel Generator,
50Hz Heavy Duty Diesel Generator,
Electric High Voltage Diesel Generator**

Product Description

Product Description:

Perkins Diesel Generator is a heavy duty diesel generator with an advanced diesel electric generator system. It is powered by a 1000kW engine, and has a 1000L fuel tank capacity. It is equipped with an electric starting system and a water cooled cooling system. Moreover, the engine is manufactured by the world-renowned brand Perkins, so customers can be confident in its performance and quality. With its reliable, efficient and cost-effective features, Perkins Diesel Generator is the perfect choice for anyone looking for an effective power supply solution.

Features:

Product Name: **Perkins Diesel Generator**

Fuel Type: **Diesel**

Frequency: **50Hz**

Control System: **Automatic**

Fuel Tank Capacity: **1000L**

Power Output: **1000kW**

Keywords: **Advanced Diesel Electric Generator**

Technical Parameters:

Attribute	Description
High Output Diesel Generator	1000kW Power Output
Durable Diesel Generator Set	3000kg Weight, 1 Year Warranty
Cooling System	Water Cooled
Control System	Automatic
Noise Level	75dBA
Speed	1500rpm
Starting System	Electric
Fuel Type	Diesel
Fuel Tank Capacity	1000L

Applications:

Perkins Diesel Generator

Minlong Perkins Diesel Generator is an advanced diesel electric generator set for commercial and industrial applications. It is designed with a 50Hz frequency, 400V voltage, diesel fuel type, and 1 year warranty. It has a dimension of 2500mm in length, 1500mm in width, and 2000mm in height. This robust and reliable Perkins Diesel Generator is capable of providing a continuous and stable power source for businesses, factories, and other facilities. It is designed to be energy-efficient and provide a high level of safety and performance. It is also designed to be resistant to corrosion and provide excellent durability.

Packing and Shipping:

Perkins Diesel Generator Packaging and Shipping

Perkins Diesel Generators are delivered in strong, wooden crates for safe and secure transportation. The crates are designed to minimize movement and impact during transit, and are secured from the inside by special straps to ensure the generator remains safe and secure. We use industrial-grade shrink wrap to further protect the generator from water or other elements. The generator is also securely strapped to the interior of the crate to prevent any movement during transit.

Once the generator is securely packaged, it is shipped directly to the customer's location via a trusted freight company.
